

Our Ethics Committee

Exists as a service to you, focusing on education, a forum in which one may come to a decision for a healthcare concern and policy making as needed to be implemented for the safety or quality of life of our residents.

Benefits of this committee enable our residents, their families and our employees to learn, grow and experience confidence in any decision making efforts needing to be made.

Our committee is comprised of professionals from within as well as outside our organization.

We attempt to cover all basis for discussion that a person will leave with the most knowledge in order to make ethically intelligent decisions.

Who decides?

Those in the position to make any healthcare decisions decide.

As an ethics committee, we provide a forum for discussion and learning so that the person(s) making a decision may comfortably make it, hopefully without reservations.

The ethics committee does not make any decisions. It only provides suggestions and offers support.

Confidentiality is our primary concern. Anything discussed with the Ethics Committee will be kept in the strictest confidence.

Do you have a healthcare decision to make?

Would you like some input as you prepare to make this difficult healthcare decision?
