When you click on the little window icon in the lower left corner of your home screen a little gear will be displayed. If you click on the little gear (Settings) and click on the Network and Internet box, you will see your Internet status. A diagram will show if you are connected to the Internet.

If you are not connected to the Internet, click on the WiFi option in the list on the left to see what is available. You should see the WiFi networks shown in the illustrations on this page. Many are secured and belong to various residents. To use them you need to know the required password.

**You can click on ACTS-Guest option and click on Connect to gain access to the Internet.**
